

DROPPER POST

The following table shows the recommended minimum inseam length for the corresponding frame size.

	SMALL	MEDIUM	LARGE
KS LEV 100MM	71	71	71
KS LEV 125MM	75.5	75.5	77.5
KS LEV 150MM	81	81	81
KS LEV 175MM	85.5	85.5	85.5
KS LEV 200MM	90	90	90
RACEFACE 125MM	81	81	81
RACEFACE 150MM	87.5	87.5	87.5

How do I measure my inseam length?

Stand against a wall in a straight posture to measure. Take a spirit level and clamp it between your legs (a book works instead of a spirit level).

With both hands (in front of and behind your body), pull the spirit level or the book into your crotch as if you were sitting on a saddle. The level or book should remain horizontal during the measurement.

Now measure the distance from the top of the spirit level to the floor. This is your inside leg length.
